# 1 Overview

## 1.1 Introduction

**DJP-P01** Android Portable Projector uses **Amlogic quad core S905X**, having a strong capacity of multimedia processing and rich peripheral interfaces. **Besides, this Projector is able to run 4K Videos/Images.**

## 1.2 Features

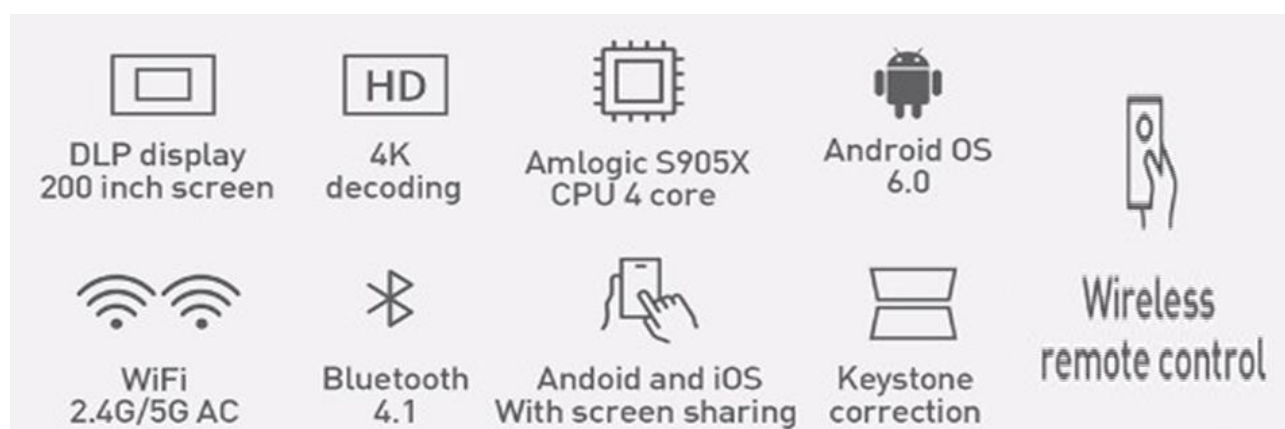

- HD interface is provided for access of various devices with a resolution up to 4K
- Support WIFI , Bluetooth as well as standalone mode
- Both vertical and horizontal displays are supported
- High performance 4K solution Android Portable Projector

**POWERFUL CONFIGURATION**

The projector with Amlogic S905X chip, the use of 64 bit 4 core CPU and 2GB+16GB memory, customizes characteristic Android 6.0 system.

<b>A53</b> ARM® Cortex™	<b>1.5GHz</b> CPU 4 core	<b>Mali™-450</b> GPU 4 core	<b>2GB+16GB</b> DDR3+eMMC
----------------------------	-----------------------------	--------------------------------	------------------------------

## MULTIPLE SCREEN SIZES

You can experience 30~200 inch picture without screen.  
It applies to many types of houses. No matter  
how big the house is, how big is the cinema!

# TURN HOME INTO A CINEMA

The projector uses DLP display technology,  
HD 4K decoding with 200 inch giant screen.  
You can watch movies comfortably at home.

## KEYSTONE CORRECTION

Vertical keystone correction  $\pm 45^\circ$ , you can watch  
movies more freely by adjusting screen picture.

# ENJOY SCREEN SHARING

Support Miracast and Airplay wireless display,  
send your video and photos to the big screen.

Airplay  
(apple)

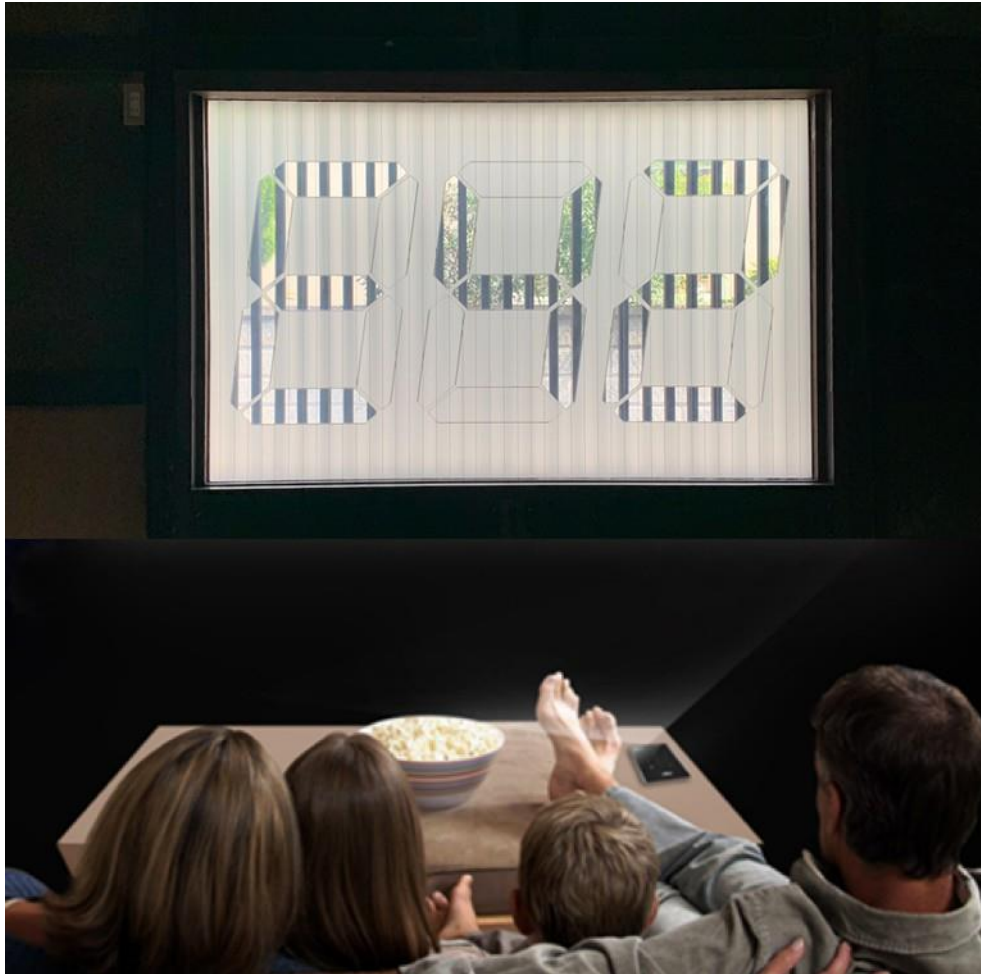

Miracast  
(Android)

# WIRELESS REMOTE CONTROL

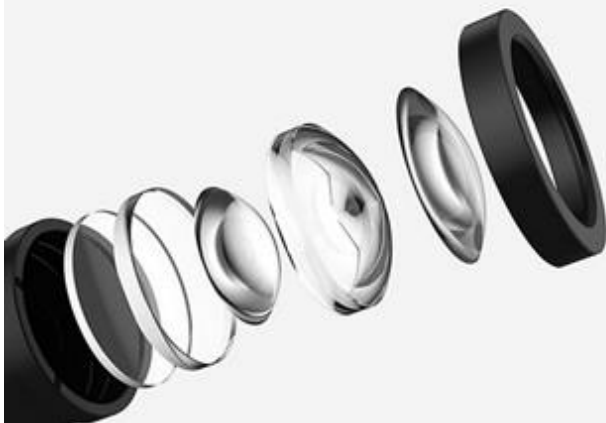

It brings comfortable grip, also can be controlled in many directions and angles by simple operation.

## HIGH TRANSPARENCY LENS

The projector features a wearable, coated glass lens and high quality LED bulb, that ensures screen bright, stable and light life up to 20000 hours.

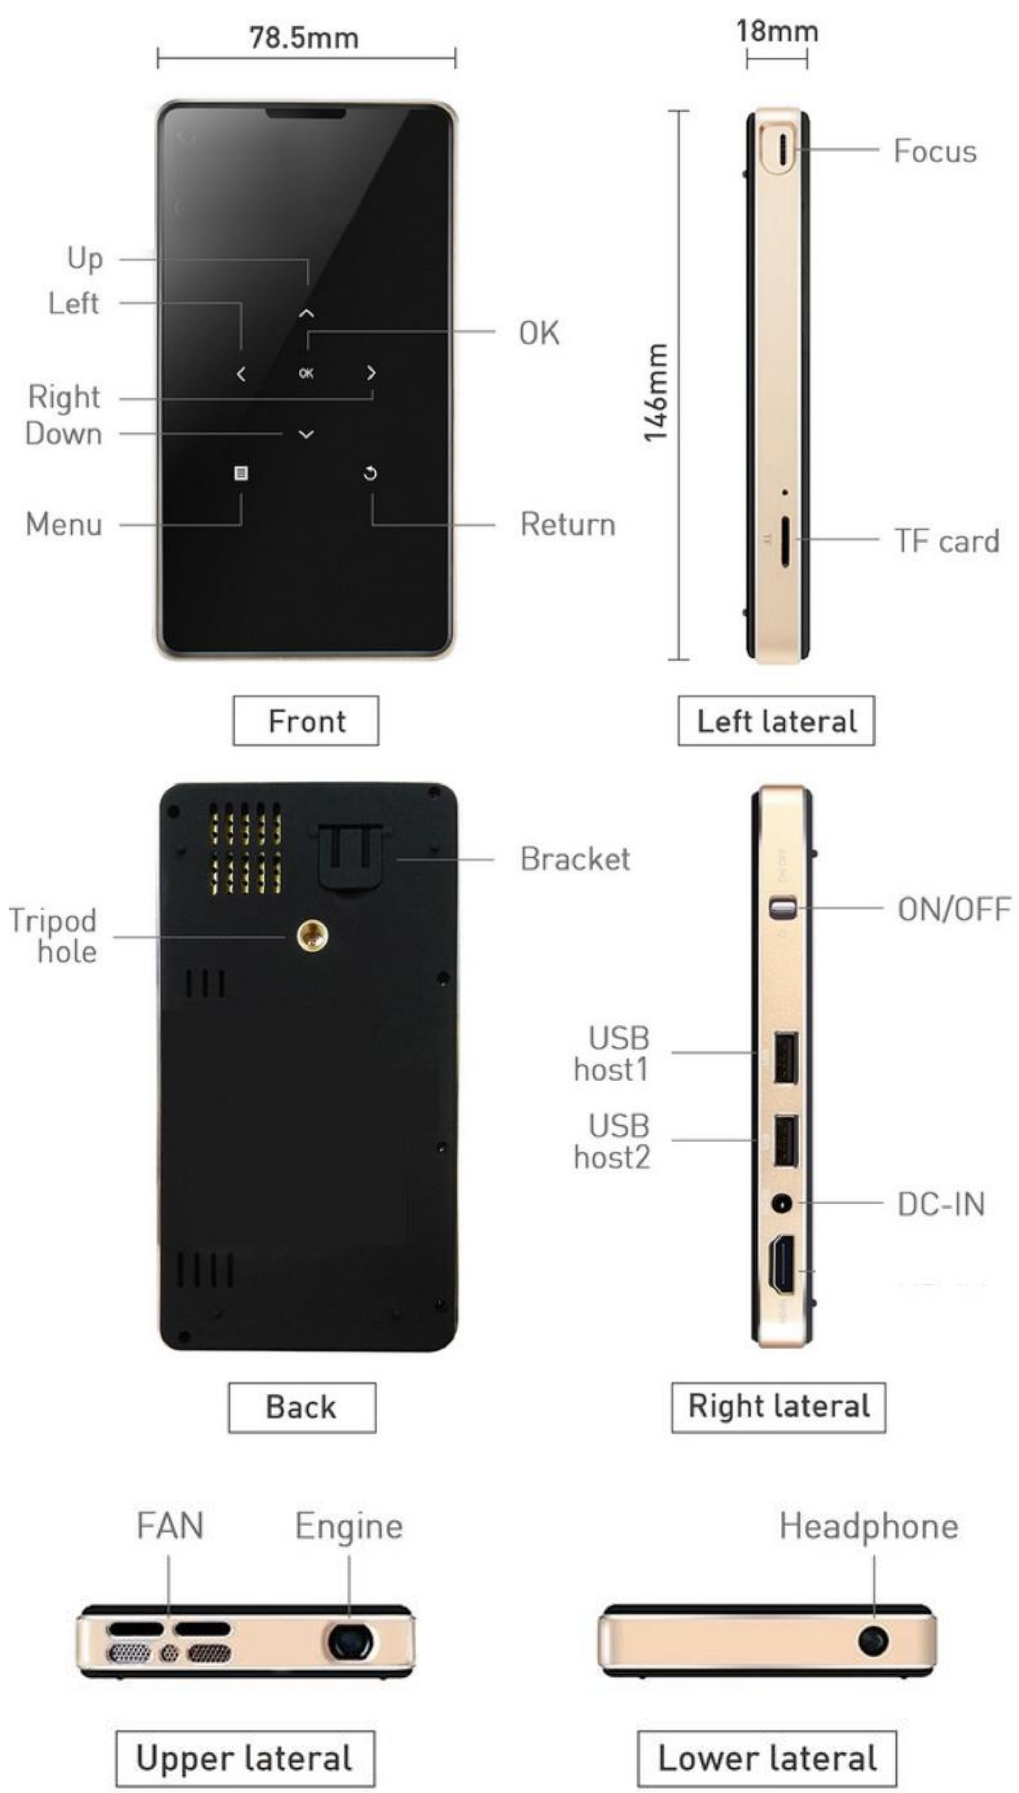

**LED Bulb for 6 years**

Ordinary Bulb for 1 year
